

Maharshi Paramhansh College of Education

Recognized by NCTE for D.El.Ed & B.Ed • Affiliated to JAC & Vinoba Bhave University

Maharshi Paramhansh College of Education

Energy Policy Document

The aim of the energy policy document is to have a clear policy and guidelines for energy conservation and minimize the impact of institutes energy usage on the environment.

- The institute should assess its energy usage and measure its impact on the environment.
- Switching to solar energy has to be given prime importance. The institute should install photovoltaic solar panels for the generation of alternate energy to meet at least 75% of its electric needs.
- All individuals (teaching, non-teaching and students) of the institution should appreciate and value the use of energy. They must switch off all the lights and fans after the classes / college working hours.
- Signboards on energy conservation need to be displayed at the focal points of the institution.
- All the classrooms, labs and offices must have large windows to maximize the usage of natural daylight and air.
- LED bulbs must be used in the complete campus to save energy.
- Priority needs to be given to energy efficient equipment during purchase of electrical appliances.
